Work Experience

Full Stack Web Development Intern

ElevanceSkills

Aug 2026 - Sep 2026
India

Developed a BookMyShow-like web application using Python Django. Worked on frontend and backend development, database integration, user authentication, and web application deployment. Gained hands-on experience in full-stack development through real-world project implementation.

Core Java Intern

upSkill Campus

Aug 2026 - Sep 2026
India

- Completed a hands-on Core Java Internship under the AICTE Internship Program.
- Strengthened skills in Core Java, OOP, Exception Handling, and File Handling.
- Developed a Banking Information System using Java.

MERN Stack Development Intern

Emertxe Information Technologies

Aug 2026 - Sep 2026
India

Developed a full-stack accommodation booking platform using the MERN Stack (MongoDB, Express.js, React.js, Node.js).

Projects

Cinema Ticket Booking System

2026-04-20 - 2026-05-05

Developed a C++-based Cinema Ticket Booking System that allows users to book tickets, manage seats, view movie details, and calculate costs. Strengthened skills in C++ programming, OOP concepts, and problem-solving.

Heart Health AI Chatbot

2026-05-24 - 2026-05-28

Developed a healthcare chatbot using **BioMistral LLM** and **PubMedBERT embeddings** with **RAG-based retrieval** to answer heart-related queries from a medical knowledge base.
Tech Stack: Python, Google Colab, RAG, NLP, Generative AI.

Portfolio - Website

2026-07-01 - 2026-07-15

Developed a responsive personal portfolio website using HTML and CSS to showcase skills, projects, certifications, and achievements. Designed with a modern user interface and mobile-friendly layout, and deployed using GitHub Pages.

HomelyHub

2026-08-12 - 2026-09-16

Developed a full-stack property booking platform using the MERN stack, enabling users to browse accommodations, manage listings, and make bookings. Implemented authentication, REST APIs, and database integration to deliver a responsive and user-friendly experience.

Core Java Banking System

2026-09-01 - 2026-09-20

Developed a Java-based Banking Information System that enables account creation, deposits, withdrawals, and balance inquiries using object-oriented programming principles. Implemented file handling for data storage and applied Core Java concepts to build a structured banking application.

Education

University College of Engineering Kancheepuram

B. E Computer Science and Engineering
2029
Kanchipuram

Skills

C and C++ Program | HTML | CSS | AWS Cloud Computing | Generative AI | Object Oriented Programming | Java | Git/Github | MERN Stack | JavaScript | AI Agents | Full Stack Web Development | Data Engineering

Certifications
